

Fandom Sports app provides priceless experiences to users by providing a platform for sports debates on its mobile-exclusive social media platform. The winners of curated and user-generated FanFights provide valuable user behavior data, which is rewarded by the earning, winning, and wagering of 'FanCoins.'

Features

- Allows users to choose from dozens of custom scenarios for NFL, MLB, NBA and NHL games
- Custom chat section for each fight, and real-time-updated leaderboard
- Backed by a proprietary gamification microservice, that is capable of managing the data of billions of player because of its high availability, tunable consistency, and masterless distributed architecture
